Hammurabi's Law Project

The code I choose from Hammurabi is code 14. The code is "If anyone steals the minor son of another then he shall be put to death."

I think this means that if someone takes the minor son of another he will be killed.

The law from Hawaii that is comparable to Hammurabi's code is "Kidnapping is a serious felony offense, with 20 years of prison."

The similarity between Hammurabi's code and Hawaii's laws are that the both include the crime of kidnapping. The only difference between Hammurabi's code and Hawaii's law is the consequences. The consequence for Hammurabi's code is death. The consequence for Hawaii's law is 20 years of prison.
